

# California Faucets' Latest Pixar-inspired Video, *Bath Time*, Wins 2019 Telly Award

Blending computer-generated characters with live-action, *Bath Time* is honored as one of the industry's most innovative and creative videos

(Huntington Beach, CA, June 11, 2019) Once again, California Faucets has been recognized for their signature Pixar-inspired videos. *Bath Time*, the company's latest entertaining and whimsical promotional video, received a coveted 2019 Telly Award in the category of Promotional Video: Use of 3D Animation. The video features a computer-generated cast of characters blended with live action for a light-hearted and memorable performance. While the supposed star of the video is a woman enjoying some "me" time singing in the bath, it's a suite of brass-finished faucets that steal the show.
