

# California Faucets Goes Back to the Future With Steampunk Bay®

Taking its cues from retro-futuristic steam gauges and gears of the “steampunk” genre, the versatile new series redefines industrial style in the bath

(Huntington Beach, CA, July 16, 2019) Just as author Jules Verne created avant-garde sci-fi stories that bred a new genre of fiction, the **Steampunk Bay® Series** ([view video here](#)) from California Faucets tells an inventive new story in the bath. Inspired by the science-fiction steam-powered, gear-driven time machines and spring-mechanized robots that define the steampunk genre, Steampunk Bay is refreshingly devoid of today's immersive digital technology. Its utilitarian shapes and slightly distressed finishes capture the zeitgeist of today's

**Steampunk Bay with Wheel Handle in Burnished Brass**

industrial design ethos, while an array of customization options allow designers and homeowners alike to create a personalized expression of industrial style in the bath.

“Steampunk Bay is like a vintage industrial faucet that microdosed on psychedelics. With its wheel assist handles and industrial-age precision markings, Jules Verne would want it in his own bath if he were alive,” says Noah Taft, California Faucets Senior Vice President of Marketing and Sales.

**Steampunk Bay widespread**

The sturdy yet elegant series offers a choice between single hole or widespread faucet, wall- or deck-mounting, and curved high arc spout or slightly square low spout design. Three handle options including a Wheel Handle design reminiscent of antique gears, a trapezoidal Lever Handle, and triangular Blade Handle, inspire further customization.

To accentuate the industrial look throughout the bath, the series includes Roman Tub sets, Bidet sets, Towel Bars in three sizes (9", 18", and 24"), Robe Hooks, and Toilet Paper Holder. Plus, the series' shower trim is based on an actual 1920s-era steam valve gauge with steel dial and vintage markings and typeface.

Like all of California Faucets quality fittings, the Steampunk Bay Series products are made of solid brass and available in more than 30 artisan finishes including 15 PVD (Physical Vapor Deposition) finishes, which are guaranteed not to tarnish for the life of the faucet.

List pricing for the Steampunk Bay Series ranges from \$849 for the Single-Hole Low-Spout Lavatory Faucet with Blade Handle in Polished Chrome to \$2,072 for the Widespread High-Spout design with Wheel Handles in Premium Finishes such as Lifetime Satin Gold.

## About California Faucets

At California Faucets we believe in **artisan hands**, not mass production. Since 1988, our factory in Huntington Beach has manufactured handcrafted bath products available in more than 30 artisan **finishes** that can be easily customized or purchased exactly as shown in our catalog. We proudly provide the latest in bath and shower technology with innovations such as **StyleDrain®**, **StyleTherm®**, and **ZeroDrain®**. These groundbreaking innovations turn utilitarian products into beautiful design statements and are the heart of our ever-evolving line of bath faucets, shower fittings, luxury drains, and accessories. We've also applied the same handcrafted quality and custom options to a full line of kitchen faucets. Our **Kitchen Collection** combines Italian design with California craftsmanship and offers a full range of matching accessories for a thoroughly coordinated look. For more information about California Faucets call 800-822-8855 or visit [CaliforniaFaucets.com](http://CaliforniaFaucets.com).
