tarnish and ultra-durable Physical Vapor Deposition (PVD), Mulholland blends beautifully while reflecting the artful allure of its surroundings, from Hollywood glam to urban modern.

"With its labyrinth of twists and turns, Mulholland represents the essence of Christopher's new StyleDrain designs. It's fresh and modern, yet versatile enough to work with just about any style of decor," says Noah Taft, California Faucets Senior Vice President of Marketing and Sales. Like all four of the distinctive new designs, Taft notes that Mulholland features the international award-winning interior designer's signature architectural flair.

"Mulholland StyleDrain is like a piece of jewelry for the shower. It gives you that beauty-is-in-the-details touch. And just as jewelry can be worn in both formal and casual ways, Mulholland can be 'dressed up' or 'dressed down' depending on the selected finish," explains Christopher Grubb, President/Founder of Arch-Interiors Design Group, who has been specifying the most standout bath details for his luxury-loving clientele for over 25 years.

More than just a pretty accessory, Mulholland's spiral decorative grid design is made of solid brass. Its durable construction won't bend underfoot, plus with no visible screws and a handcrafted finish, StyleDrain is comfortable to stand on.

Measuring 5 ¼" sq., Mulholland StyleDrain lists from \$239 in Polished Chrome to \$382 in a premium finish such as Black Nickel.
