## GO WITH THE FLOW:

## California Faucets New High Flow Rate Single Handle Tub Fillers Stylishly Fill the Tub in Half the Time

These more streamlined tub fillers feature an impressive 10 GPM flow rate, and are available in a wide selection of handle, spout and finish combinations to complement most any decor

(Huntington Beach, CA, December 16, 2020) While everyone loves soaking in a hot bath, no one enjoys waiting for the tub to fill up. California Faucets has solved this problem with its new line of high flow rate **Single Handle Tub Fillers**, which can fill a large tub in record time without sacrificing the streamlined style coveted with this class of tub filler. With a flow rate previously only available in two-leg styles, the

new series of single handle designs have a generous 9-inch center-to-center spout reach and are available in a wide range of looks including **Traditional**, **Contemporary**, **Transitional**, and **Industrial**.

“There are single leg tub fillers that are streamlined and contemporary, but practically none that can generate water flow as fast as two-legged tub fillers.

5271 Argosy Avenue, Huntington Beach, CA 92649 800-822-8855 [CaliforniaFaucets.com](http://CaliforniaFaucets.com)

Contemporary style Asilomar

Traditional/transitional Palomar

Industrial-inspired Descanso

Steampunk Bay

We've accomplished both," says Noah Taft, Senior Vice President of Sales and Marketing for California Faucets. "Our design and engineering team worked hard to overcome the challenges that make it hard to produce a high flow rate tub filler in a sleeker, thinner, single handle design."

Their ingenuity resulted in a slimmer, less cumbersome tub filler that reaches an impressive flow rate of 10 GPM. With the ability to fill a 42" tub in less than 4 minutes—a marked improvement over the average flow rate of just 4-6 GPM for most others—the stylish new collection of single-handle tub fillers also fills a market void.

Along with the improved design, California Faucets has created what's likely the industry's largest selection of tub filler options to truly personalize the bath. From the traditional/transitional **Hermosa** and **Palomar** series and the contemporary **Asilomar**, **Bolsa**, and **Morro Bay** series to the industrial-inspired **Steampunk Bay** and **Descanso** series, the single handle designs join California Faucets popular series of 2-handle tub fillers. All told, there is a California Faucets tub filler to meet practically any design vision. Designers, architects, and homeowners alike can choose their favorite spout and handle combinations, and then pair it with one of over 28 handcrafted finishes, which amounts to endless design possibilities.

Freestanding and made of solid brass, each single handle tub filler features a 9" center-to-center spout reach. The more liberal spout lends to the fast flow rate, while helping to make each style an eye-catching piece of "art" for the bath.

Pricing for the all-brass high flow rate Single Handle Tub Filler starts at \$2,195 for the Industrial and Contemporary styles in Polished Chrome.

### About California Faucets

At California Faucets we believe in **artisan hands**, not mass production. Since 1988, our factory in Huntington Beach has manufactured handcrafted bath products available in 28 **finishes** that can be easily customized or purchased exactly as shown in our catalog. We proudly provide the latest in bath and shower technology with innovations such as

**StyleDrain®**, **StyleTherm®**, and **ZeroDrain®**. These groundbreaking innovations turn utilitarian products into beautiful design statements and are the heart of our ever-evolving line of bath faucets, shower fittings, luxury drains, and accessories. We've also applied the same handcrafted quality and custom options to a full line of kitchen faucets.

Our **Kitchen Collection** combines Italian design with California craftsmanship and offers a full range of matching accessories for a thoroughly coordinated look. For more information about California Faucets call 800-822-8855 or visit **CaliforniaFaucets.com**.
